

Department of Computer Science & Engineering

Instruction Sheet for Submission of Research Plan for

Capstone Project-I (CS4095, Autumn Semester 2026-27)

All B.Tech final year students of the Department of Computer Science & Engineering are hereby informed that, as part of the evaluation of the course “**Capstone Project-I**”, each candidate is required to submit a **detailed Research Plan** for the period of **four months: August 2026 to November 2026**, leading towards their B.Tech Capstone Project work.

This document will serve as a mandatory input for the final examination to be conducted in November 2026 and will be placed before the candidate's respective Panel for final evaluation.

1. Purpose of the Research Plan

The Research Plan should clearly demonstrate:

- The **exact research activities** the candidate proposes to carry out during the Autumn Semester 2026-27.
- A **time-bound work plan** aligned with the project objectives.
- The **expected research outcomes** by the end of November 2026.

The plan must be **recommended and approved by the Supervisor(s)** before submission.

2. Mandatory Components of the Research Project Plan

Each Research Project Plan document must contain the following sections:

1. Student Details

- Name of the Candidate
- Registration Number
- Supervisor(s) Name(s)
- Tentative Title of the Research Project/Broad area of research

2. Brief Problem Statement (1–2 pages)

- Research problem being addressed
- Motivation and relevance
- Research gap identified

3. Objectives for Autumn Semester 2026-27

Clearly list the **specific objectives** to be achieved during this semester.

4. **Detailed Month-wise Work Plan (August-November 2026)**

A clear breakup of tasks point wise must proportionate to the total credit of CP in Autumn 2026-27.

(This may be presented in a tabular or Gantt-chart style.)

5. **Expected Deliverables by November 2026**

Examples:

- One conference / journal paper submitted or under preparation
- Simulation results / prototype developed
- Mathematical model finalized

6. **Milestones and Evaluation Points**

Indicate:

- Mid-semester milestone & Final milestone before April 2026 examination

7. **Supervisor's Recommendation**

A signed statement from the Supervisor(s) certifying that:

“The proposed research plan is realistic, well-structured, and recommended for implementation during Spring Semester 2026.”

4. **Submission Mode and Deadline**

• **Mode of Submission:**

Upload the approved Research Plan in **PDF format** on **Microsoft Teams**.

• **Last Date of Submission:**

On or before 12th August 2026

Late submissions will be treated as **non-compliance** with course requirements.

5. **Use of the Document**

- The submitted Research Plan will be:
 - Placed before the **respective Panel members**, and
 - Used as a **primary evaluation document** during the **final examination in November 2026**.

Failure to submit a proper, supervisor-approved plan may affect the **eligibility for final evaluation**.
